

## See what people are saying about living in Rhapsody of Victoria

“Lennar is committed to creating a sense of community by supporting community activities and keeping residents up to date and connected! Beautiful homes, wonderful people and a stellar school district make this neighborhood the perfect environment in which to raise a family!” - *Erica V.*

“I have built six homes in five different states. Each of them had their challenges. In Lennar’s case, there were no significant issues and ALL time schedules were either met or brought forward. Lennar’s first-time quality is outstanding and the response to corrections was within 24 hours. I would build another one!” - *Gregg B.*

“Scott made the entire homebuilding process a pleasurable experience. It really felt like it was all about us - not about making a sale. Scott was always available for the many questions we had and was very patient with our requests. We were never rushed into a decision and always given plenty of options. Lennar delivered everything as expected and kept us informed throughout the process. We love our new home and the great community around us!” - *Dave and Dawn*

“My friends are constantly telling me they wished they lived in our development. It is such a warm, caring and friendly community.” - *Kristine F.*

“The Rhapsody neighborhood residents have become like a family to us. Everyone is so kind and we feel so lucky to be part of such a friendly, warm community. We have made so many friends that we will have for a lifetime.

“When we experienced a horrific tragedy earlier this year with the death of our infant son, the neighborhood pulled together to create a meal plan for our family for three months. In addition to that, the builder, Lennar, donated a bench as a dedication to our son, which is located in the Rhapsody playground. The neighbors all got together and donated enough money to purchase a shade tree for the bench as well. We are so blessed to have such a strong support system in Rhapsody.

“This neighborhood is our forever home. We absolutely love it here. We have no regrets. Lennar has been amazing - so diligent in responding to us if we ever have questions, beyond our expectations. Anyone would be lucky to live here.” - *Jason and Paige*

“We are relocating to the Twin Cities area. We looked for homes in various areas including Chaska, Chanhassen, and Maple Grove. We visited many homes but could not find what we were looking for until we found the Lennar community in Victoria. Scott was the sales consultant in this community. He immediately made us feel right at home. The quality and value of the Lennar home could not be beat. The neighborhood and amenities provided by the Lennar community in Victoria had us sold. Scott has been available to us throughout our purchasing experience. Also, we appreciate the fact that Lennar has set up a personal web page for us to help with the transition of moving from our current home to Rhapsody. We were able to find a home built by Lennar that had every item on our “wish list” in a price range we could afford, in a beautiful community, and with quality features (such as energy efficient appliances, granite countertops, wood floors, and fantastic views) we will enjoy for years to come. Thank you, Scott and Lennar for your commitment to building a home we will be proud to own.” - *John and Julie S.*
